Economic Forecast Update

Our world and our industry have changed since our 2020 Economic Forecast in February. Join us as Dr. Raymond Sfeir of Chapman University gives us an overall economic forecast update. By attending this update, you will hear about:

- How is COVID-19 impacting employee's income?
- How much assistance are employees receiving from the government?
- What is the growth rate in employment and real gross domestic product?
- Is California's economy impacted more or less than the nation's?
- How good is the performance of the Orange County economy and housing market?
